SUMMARY

Experienced Full Stack Developer with 3+ years in React.js, Node.js, Express.js, and MongoDB. Led a 5-member team, improving application performance by 20% and user engagement by 15%. Proficient in JavaScript, integrating third-party APIs, and working with RESTful APIs. Delivered projects 25% faster by collaborating with cross-functional teams. Dedicated to best practices and emerging technologies, ensuring consistent, user-centered results.

EXPERIENCE

Openturf technologies, Senior Software Engineer Consultant
Aug 2024 - Dec 2024

- Increased project success rate by 20% by mentoring teams on high-quality software delivery, ensuring robust and scalable solutions.
- Improved code quality by 30% by providing technical guidance and code reviews, enhancing overall system reliability.
- Secured employee data for 500 users by developing a finance application with robust security, ensuring compliance with data protection standards.

Vaurse, Software Developer
May 2023 - Aug 2024

- Developed and maintained a web application using React.js and Redux, improving data flow and state management, resulting in a 20% increase in application performance.
- Designed and optimized REST APIs, achieving a 35% increase in overall page speed and a 40% reduction in downtime.
- Debugged and resolved application issues, enhancing user experience and system stability.

BzAnalytics, Associate Software Developer
Aug 2022 - Feb 2023

- Developed and implemented new functionalities using React Flow, enhancing the web-based Chatbot and enabling CRUD operations on flowchart nodes, resulting in a 25% increase in user engagement.
- Collaborated with AI teams to ensure timely delivery of project milestones, improving overall project efficiency and meeting deadlines.
- Integrated third-party graphing libraries and admin dashboard tools, enhancing data visualization and management capabilities, leading to improved decision-making processes.

Kenzai Mind Info Solutions, Junior Software Developer
Oct 2021 - May 2022

- Developed various web applications using React.js, Node.js, and MongoDB, resulting in a 20% increase in user engagement.
- Applied responsive designs, increasing mobile traffic by 15%, and delivered projects 2 weeks early with an 85% satisfaction rate.
- Integrated third-party APIs (Twilio, SendGrid, Google API), enhancing functionality and boosting user engagement.

EDUCATION

Indira Gandhi National Open University
Master of Computer Applications • Jun 2017 - Apr 2020

LICENSES & CERTIFICATIONS

MERN stack complete: full stack apps from scratch
Joost Bijlsma on Udemy • UC-ac91720f-260d-49b2-bd5c-f702d0cf956d/ • Issued Jun 2022

SKILLS

ReactJS • NodeJS • ExpressJS • MongoDB • MySQL • PostgreSQL • Agile methodologies • Microservices • APIs development • AWS
